Comments.

25X1

- (1) The observation of soldiers wearing black epaulets and carrying axes vaguely indicates that the Nachrichten Kaserne, Uebigau, still quarters engineer troops of a unit which was observed there in the spring of 1950. [redacted] The AA gun emplacement at the autobahn bridge across the Elbe River near the Nachrichten Kaserne, Uebigau, is known from previous reports. 25X1
- (2) The truck [redacted] belong to series of the 11th Gds Tank Div. [redacted] 25X1
- (3) To date, estimates of the number of troops in the SS Kaserne "Wilder Mann" were between 400 and 700 men. [redacted] reported about 600 tank troops quartered there on 3 January 1951. The statement [redacted] of the present report that about 1,600 men were stationed there seems to have been exaggerated. A previous report stated that only some tanks were kept at the installation for training purposes, while most of the tanks were in Koenigsbrueck. [redacted] Most of the motor vehicle numbers mentioned in the present report belong to series of headquarters units of the First Gds Mecz Army. For a corrected sketch of the SS Kaserne, see Annex [redacted] 25X1
- [redacted] contains an additional garage on Hallerhofstrasse. 25X1
- (4) According to previous information, the Adolf Hitler Kaserne houses a motor vehicle repair shop with spare parts stores and pertaining personnel.
